A school should instil in a child a lifetime love for learning and knowledge, and provide the foundation for all-round development and excellence. These aims inspire all of us at Lotus Public School in everything we do.

The evolving educational landscape offers tremendous opportunities for applying creativity and innovation in the teaching and learning processes. It calls for preparing children to think critically and imaginatively, adapt to new technologies and ways of learning, and apply their learning to real world situations.

At LPS, our focus is on creating an atmosphere of learning that children enjoy and one that encourages them to discover and express their talents to the fullest. We are driven by the belief that every child is important and children should be at the heart of every educational endeavour. This makes us direct all our efforts to inspire and enable each child to believe in and practise our motto, "Dare to Dream ... Learn to Excel" Our School's educational offerings are enriched by a wide range of sporting and curricular activities, as community service initiatives, that seamlessly complement our academic programmes. This facilitates children's learning on all levels intellectual, physical, social and emotional. Teaching and learning strategies that recognize children's multiple intelligences, along with care and individualized attention, nurture children to grow to their potential and, most importantly, develop lasting values and strength of character.

Our exceptionally talented and dedicated teachers are the building blocks of our school's excellence. Parents's trust in all that we do always motivates us to go the extra mile for our children's success and well-being.

We pride ourselves on being a future-ready, happy school, unique in its international character while upholding the Indian ethos. We look to the future with a strong commitment to making a genuine difference in the lives of many young minds.

Dear Parents and Carers :

We would like to welcome you to our school, and hope that you will enjoy reading this to find out more about us.

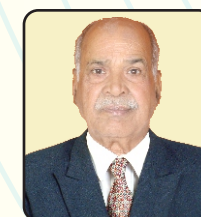

LOTUS PUBLIC SCHOOL HELPS EACH OF US TO BE THE BEST THAT WE CAN. WE LEARN WELL, WE BEHAVE BRILLIANTLY, AND WE ARE HAPPY!

Our aim is to provide a friendly family atmosphere, which will encourage learning and make it possible for each child to fulfil his/her potential.

The school exists only to serve the best interests of our children. LPS Janjgir is run by Unnat Shikshan Sammiti, Janjgir. The school is located at the heart of the city near Sharda Chowk, Akaltara Road, Janjgir. We believe in value based education. We want to make the students not only educated but make them good citizens also. We want to give right shape to the students with proper nourishment. This is our school building currently we are running CBSE pattern courses from Play group to VII.

Our school Campus is spread over lush green, pleasing & healthy environment. We have separate class room for library, Computer lab, Smart class room, English lab, Math Lab & Play Zone. We have beautiful play ground. We have excellent and renowned education partner which helps and organizes various seminars, workshops for Value Education, Character Building and Competence.

Our Vision

We recognise the imperative of Imparting an educational experience that is world-class in every respect and which prepares children for global citizenship. We are a school with an indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of children, in preparing them to face the challenges of the 21st century with confidence and strength of character,

Our Mission

To provide a learning environment that encourages children to bring out the best in themselves and which supports their intellect in multi-dimensional ways, and instilling abiding values in themselves.

Our Values and Attributes

We have identified some key qualities which we feel align with our guiding statements, and which we strive to practise every day.

- ♦ Cleanliness
- ♦ Compassion
- ♦ Commitment
- ♦ Honesty
- ♦ Integrity
- ♦ Respect
- ♦ Responsibility
- ♦ Self-discipline
- ♦ Teamwork
- ♦ Trust

Unique Features

Life Experience Based Learning

Experiential learning is a vital element of student life at LPS. A wide range of opportunities outside of the classroom provide real-life experiences and challenges for students. We foster the interests of each child and help them realize their full potential in multiple ways. The activities offered are also aimed at building their social and life skills.

The LPS co-curricular programme provides enriching opportunities beyond the classroom for our students to pursue their areas of passion, explore their creative side and enhance their inherent competencies and leadership skills. Students are able to choose from an array of activities : Music, Dance, Drama, E-Magazine (Perspective), Scrabble, Quiz, Cooking, Art Animation, Pottery, Calligraphy and Wood Work. The School also offers students a wide range of clubs, such as Film Appreciation, Science, Debate, Robotics, Spanish/French, School Magazine (Insignia) and Photography. Such activities and interactions with experts from different fields help our students gain a glimpse of professions related to their area of interest.

LPS students also engage in out-of-school where they simulate real-life situations, develop leadership skills and gain experience of volunteering for various community service activities which challenges students in four areas Physical Recreation, skills, services and expedition.

Emphasis on Spoken English

English may not be the most spoken language in the world, but it is the official language in a large number of countries. It is estimated that the number of people in the world who use English to communicate on a regular basis is 2 billion!

English is the dominant business language and it has become almost a necessity for people to speak English if they are to enter a global workforce, learning English really can change your life. Although learning English can be challenging and time consuming, we can see that it is also very valuable to learn and can create many opportunities.

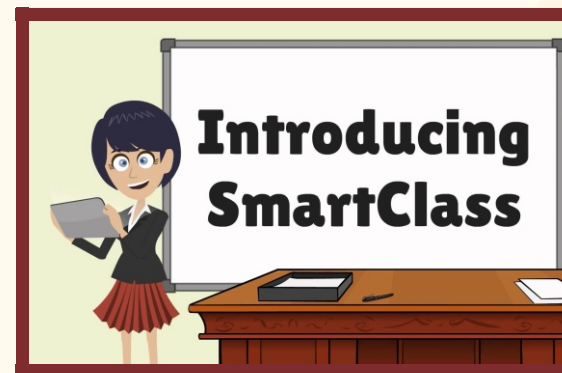

In LPS our whole team of staff and teacher's are dedicated to provide such a wonderful environment to make our student's comfortable in speaking english.

Smart Class

We have installed digital class room for smoothly running smart class. We all know how helpful it is to remember something that is taught visually to us rather than the one that is read through pages after pages. Just imagine, how beneficial would it be for students to understand a chapter visually in class. The concept of smart class education is indeed a blessing to the students of the 21st Century. Technology is changing the way of life functions and if it's for the good, then why not go for it!

In fact, smart classes are almost like watching movies as sometimes, animated visuals are used to teach a point. This kind of visual is both eye-catching and young students can easily relate with them. But the use of smart classes and modern technology eases the learning process for all students. Moreover, this kind of education in class promotes more interaction between teacher and student with more participation from both sides.

Service Learning

A key feature of LPS education is providing an enduring learning experience to instill the values of caring, compassion and empathy in students. These values lie at the heart of the LPS service learning activities and equips students with the knowledge and skills to bring about positive social change. Students from Class III onwards are involved in community service, with the aim of achieving three primary goals - AWARENESS, ACTION and ADVOCACY. The age-appropriate local, national and international service projects and activities involve planning, action, review and reflection, which create invaluable life experiences. These expose children to purposeful civic learning and to the values of democratic processes and social responsibility.

A three-pronged approach forms the basis of LPS Community Service programme: the LPS Village Empowerment Project, LPS student-initiated projects and Service Initiatives supporting NGOs. Through these, students get opportunities to visit and take part in activities at old-age homes, orphanages and NGO schools. The village projects involve working to build schools, roads, houses and toilet blocks in villages. Built on the three pillars of Infrastructure, Education and Empowerment, the LPS initiated Village Project 'Empowering Rural India' is a reflection of the LPS ethos of giving back to the community.

Service Learning creates the opportunity for purposeful civic learning. Active community service helps students define for themselves what it means to participate in a democratic society and deepens their understanding of individual leadership and social responsibility. Interactions with the community lead to new perspectives and more positive lifestyle choices and behaviour. Our students evolve as reflective thinkers by applying academic learning to real human needs.

Student Care

Student Counselling Service

LPS recognizes its responsibility towards promoting the well-being of students by supporting and guiding them through various difficulties. Students are offered opportunities to become more self-aware and play a pro-active role in their personal well-being by developing life-long coping skills and resilience through Life Skills programmes. The School offers counselling services to students who are facing concerns, as well as suggestions of ways to work through difficult or problematic issues, so that they learn to self-manage challenges in constructive and creative ways.

Special Education Needs

LPS offers flexible, inclusive and child-centred support to all students facing learning difficulties. A dedicated team of special educators and counsellors help students and parents understand that learning is a unique process and the school makes every effort to support identified students so that they are able to perform to their potential. In collaboration with Student Care Department, teachers ensure that students requiring different or additional support receive the guidance that they need.
